

# Sky watch

## ***NEEL ROBERTS***

Download this month's sky free chart at [whatsouttonight.com/Resources/2022JanWOTSkyChart.pdf](https://whatsouttonight.com/Resources/2022JanWOTSkyChart.pdf).

On Wednesday, Jan. 29 look southeast around 6:30 a.m. as the moon and Mars rise in conjunction into the daylight.

Monday, Jan. 31 is a great dark sky for general stargazing as no light will be around to block deep objects.
